

Dear supporter,

Thank you for experiencing for yourself the 10th Annual Myeloma Research Roundtable and/or the Living with Myeloma Conference.

We were inspired by attendee comments and their stories. I know you were too. Here is a sample of what attendees shared with us.

"One of the best Myeloma Conferences I have attended" and "To hear this caliber of speakers, Dr. Kyle, Dr. Ken Anderson, Dr. Bart Barlogie and Dr. Joseph Mikhael, you would really need to attend an international conference. This speaks to the influence AZMN has in the Myeloma world" – Ann B.

"The Living with Myeloma conference is not only a great educational resource for patients who want to empower themselves against their cancer, but it also serves to foster important new friendships with people who are going through similar situations. Learning the basics along with current and new treatment therapies will make it possible to cut down on the time you need to spend at an oncology appointment. It will allow you to gear your discussion with the Dr. to things specific to your case instead of general information (which you already know because of these conferences)" – Lani
