This is an advertisement. A sales representative may contact you after receiving your inquiry. This is only a brief summary of benefits and exclusions. Detailed information about benefits, limitations, and exclusions is in the policy and is available prior to enrollment upon request. Medicare benefits are subject to change. The Medicare deductible and copayment amounts in this outline are effective through December 31, 2022. The best time to buy a Medigap (Medicare Supplement) policy is during your Medigap Open Enrollment Period. This 6-month period begins on the first day of the month in which you’re 65 or older and enrolled in Part B. (Some states have additional Open Enrollment Periods.) After this enrollment period, you may not be able to buy a Medigap policy. If you’re able to buy one, it may cost more. If you enroll in a Senior Security or Senior Preferred plan at age 65 through 72, you receive an early-enrollment discount on your rate. The early-enrollment discount is reduced annually through the age of 76. The change in discount occurs in the next month’s bill after your birthday. When your discount no longer applies, you will be charged the BlueValue, or Standard rate assigned to your Senior Security or Senior Preferred plan.
